SELECTED BIBLIOGRAPHY
BURMA AND ADJACENT REGIONS, BIOLOGY, NATURAL HISTORY

John H. Davis, University of Florida, 1961

PREFACE

This bibliography contains references on the first 10 pages to most of the English language publications that concern Burma in general and 34 pages numbered B1 through B34, that concern Biology and related Natural History subjects. Many of the Biology references are about India and other regions adjacent to Burma because the flora and fauna of these regions is important to Burma in many instances.

General references, such as monographs of particular groups of plants or animals and certain general texts are given, as well as particular studies. These together should enable the student and research worker to gain a comprehension of particular subjects he may wish to study.

Forests and forestry are included but not in detail.

The references to Vertebrate animals are more extensive than to the Invertebrate animals, and very few references are given to Protozoa and parasites.

A selected bibliography concerning Agriculture has also been made and references in it will supplement some of the Biological topics considered here.

Florida Depository.

1. The first part of the book is devoted to a general survey of the history of the theory of the origin of life.

2. The second part is devoted to a detailed examination of the various theories of the origin of life.

3. The third part is devoted to a critical examination of the various theories of the origin of life.

4. The fourth part is devoted to a critical examination of the various theories of the origin of life.

5. The fifth part is devoted to a critical examination of the various theories of the origin of life.

6. The sixth part is devoted to a critical examination of the various theories of the origin of life.

7. The seventh part is devoted to a critical examination of the various theories of the origin of life.

8. The eighth part is devoted to a critical examination of the various theories of the origin of life.

9. The ninth part is devoted to a critical examination of the various theories of the origin of life.

10. The tenth part is devoted to a critical examination of the various theories of the origin of life.

11. The eleventh part is devoted to a critical examination of the various theories of the origin of life.

12. The twelfth part is devoted to a critical examination of the various theories of the origin of life.

13. The thirteenth part is devoted to a critical examination of the various theories of the origin of life.

14. The fourteenth part is devoted to a critical examination of the various theories of the origin of life.

15. The fifteenth part is devoted to a critical examination of the various theories of the origin of life.

16. The sixteenth part is devoted to a critical examination of the various theories of the origin of life.

17. The seventeenth part is devoted to a critical examination of the various theories of the origin of life.

18. The eighteenth part is devoted to a critical examination of the various theories of the origin of life.

19. The nineteenth part is devoted to a critical examination of the various theories of the origin of life.

20. The twentieth part is devoted to a critical examination of the various theories of the origin of life.

21. The twenty-first part is devoted to a critical examination of the various theories of the origin of life.

22. The twenty-second part is devoted to a critical examination of the various theories of the origin of life.

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The *Agrobacterium* strains were grown in the YEA medium for 24 h at 28 °C. The cell concentration of the strains was adjusted to 1.0 × 10⁸ cells/ml. The cell suspension was mixed with the plant tissue and the transformation efficiency was determined. The results were expressed as the mean ± SD of three independent experiments. The asterisks indicate the significant difference between the strains.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. The first part of the report is a general statement of the purpose of the study. This is followed by a brief review of the literature on the subject. The next section is a description of the methods used in the study. This is followed by a presentation of the results of the study. The final section is a discussion of the results and their implications.

1. The first part of the document is a list of names and their corresponding page numbers. The names are: "John A. Smith", "John B. Smith", "John C. Smith", "John D. Smith", "John E. Smith", "John F. Smith", "John G. Smith", "John H. Smith", "John I. Smith", "John J. Smith", "John K. Smith", "John L. Smith", "John M. Smith", "John N. Smith", "John O. Smith", "John P. Smith", "John Q. Smith", "John R. Smith", "John S. Smith", "John T. Smith", "John U. Smith", "John V. Smith", "John W. Smith", "John X. Smith", "John Y. Smith", "John Z. Smith". The page numbers are: "1", "2", "3", "4", "5", "6", "7", "8", "9", "10", "11", "12", "13", "14", "15", "16", "17", "18", "19", "20", "21", "22", "23", "24", "25", "26", "27", "28", "29", "30", "31", "32", "33", "34", "35", "36", "37", "38", "39", "40", "41", "42", "43", "44", "45", "46", "47", "48", "49", "50", "51", "52", "53", "54", "55", "56", "57", "58", "59", "60", "61", "62", "63", "64", "65", "66", "67", "68", "69", "70", "71", "72", "73", "74", "75", "76", "77", "78", "79", "80", "81", "82", "83", "84", "85", "86", "87", "88", "89", "90", "91", "92", "93", "94", "95", "96", "97", "98", "99", "100".

1. The first group of documents is the "Statement of the Defendant" (1981-1982) and the "Statement of the Plaintiff" (1981-1982). These documents are the primary evidence in the case.

1. The first part of the report is devoted to a general survey of the situation in the country.

2. The second part of the report is devoted to a detailed analysis of the economic situation in the country.

3. The third part of the report is devoted to a detailed analysis of the social situation in the country.

4. The fourth part of the report is devoted to a detailed analysis of the political situation in the country.

5. The fifth part of the report is devoted to a detailed analysis of the cultural situation in the country.

6. The sixth part of the report is devoted to a detailed analysis of the scientific situation in the country.

7. The seventh part of the report is devoted to a detailed analysis of the health situation in the country.

8. The eighth part of the report is devoted to a detailed analysis of the education situation in the country.

9. The ninth part of the report is devoted to a detailed analysis of the sports situation in the country.

10. The tenth part of the report is devoted to a detailed analysis of the tourism situation in the country.

11. The eleventh part of the report is devoted to a detailed analysis of the environment situation in the country.

12. The twelfth part of the report is devoted to a detailed analysis of the international relations situation in the country.

13. The thirteenth part of the report is devoted to a detailed analysis of the foreign trade situation in the country.

14. The fourteenth part of the report is devoted to a detailed analysis of the investment situation in the country.

15. The fifteenth part of the report is devoted to a detailed analysis of the labor situation in the country.

16. The sixteenth part of the report is devoted to a detailed analysis of the housing situation in the country.

17. The seventeenth part of the report is devoted to a detailed analysis of the transport situation in the country.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample, the data collection methods, and the statistical analysis.

3. The third part of the report is a discussion of the results of the study. It presents the findings of the research and discusses their implications for the field of study.

4. The fourth part of the report is a conclusion. It summarizes the main findings of the study and provides recommendations for future research.

5. The fifth part of the report is a list of references. It includes all the sources of information used in the study.

6. The sixth part of the report is an appendix. It contains additional information that is not included in the main body of the report.

7. The seventh part of the report is a glossary. It defines the key terms used in the study.

8. The eighth part of the report is a bibliography. It lists all the books and articles that have been cited in the study.

9. The ninth part of the report is a list of figures. It includes all the charts and graphs that are used in the study.

10. The tenth part of the report is a list of tables. It includes all the tables that are used in the study.

11. The eleventh part of the report is a list of abbreviations. It defines the abbreviations used in the study.

12. The twelfth part of the report is a list of acronyms. It defines the acronyms used in the study.

13. The thirteenth part of the report is a list of symbols. It defines the symbols used in the study.

14. The fourteenth part of the report is a list of units. It defines the units used in the study.

15. The fifteenth part of the report is a list of variables. It defines the variables used in the study.

16. The sixteenth part of the report is a list of parameters. It defines the parameters used in the study.
